

# Multi-destination. Multi-experiences.

Choose the way you want to  
adventure with Aurora.

Our newly expanded schedule showcases a variety of unique expedition and discovery voyages, along with trekking adventures and special guests who will deliver the natural wonders of the polar regions and beyond.

## EXPEDITION

For more than 30 years Aurora's expert Expedition Teams have been sharing their knowledge and understanding of some of the most remote and unspoiled destinations in Antarctica and the Arctic.

We follow the experience, not the itinerary, so our purpose-built small ships, Zodiacs and immersive activities can take you to undiscovered areas. Because if you want to see something you've never seen, you have to go somewhere you've never been.

## DISCOVERY

An Aurora Discovery voyage takes you to the heart of nature and is full of excursions, hikes and activities, offering the true spirit of adventure as well as history and cultural experiences.

Sometimes we go off the beaten path and on others we have a combination of less discovered and more populated areas. Because when you disembark, we want you to be richer in your knowledge and understanding of our planet than you were when you stepped aboard.

## TREKKING

Our treks promise a new level of adventure. Combine an expedition or discovery voyage with a trek, allowing you to really experience the nature and culture of the destination, and enjoy more time to explore the local sights and sounds.
